OUR TEAM

We hire only the best and most experienced employees at Four Corners Veterinary Clinic. Our team is filled with highly dedicated and skilled animal lovers. Learning and education are very important at Four Corners, and our facility has state-of-the-art technology, as well as a staff that is trained in the latest medical technologies. Our team members treat every patient in their care like their own. They will do anything possible for their patients and the owners who love them.

We understand that a pet is part of the family. The day your pet enters our hospital it becomes part of our family, too—and our goal is to give them as many happy, healthy years with you as possible. From new puppies and kittens to graying seniors, we'll be there every step of the way with comprehensive services and the experienced, compassionate care your pets deserve.

OUR SERVICES

PREVENTIVE CARE & WELLNESS CARE

Preventative care is a pet's first line of defense against illness and injury. Annual exams, blood testing and other routine screenings allow us to prevent, diagnose and treat disease in its early stages, often before you notice any symptoms and while it can be most effectively managed.

Since pets age much faster than we do, a healthy adult pet will receive Wellness Services with their veterinarian once a year. Your pet's exam will consist of:

- Screening to prevent, diagnose, and treat diseases before symptoms become aggressive
- Nose-to-tail comprehensive exam
- Discussion around pet's diet and preventative medicine regime and exercise routine
- Monitoring of your pet's vitals including weight
- Assessment of your pet's dental health
- Yearly screenings including fecal, blood, heartworm, and possibly urine (depending on your pet's needs)
- Parasite prevention assessment
- Discussion around behavioral changes
- Core vaccinations and a custom plan for other vaccinations that may benefit your pet due to their lifestyle

SPECIALTY SERVICES

SURGERY

Surgery is often the most effective way to treat many serious injuries and disorders, and Four Corners Veterinary Clinic is proud to offer state-of-the-art facilities and equipment. Our hospital provides a full range of surgical services ranging from standard spaying and neutering to advanced, highly specialized procedures. Patient safety and comfort is our main priority, and our experienced veterinary anesthesiologists provide skilled pain management during and after all surgical procedures, ensuring your pet recovers quickly and with minimum discomfort. We utilize the safest available human-grade anesthetics to provide an extra margin of safety, especially for our older or high-risk patients. Using the most modern equipment, the patient's vital signs are monitored during all anesthetic procedures.

Surgery specialties:

- Soft-tissue
- Orthopedic
- Dental
- Ophthalmic
- Foreign body removal

LASER THERAPY

Laser therapy is a painless, non-invasive and drug-free therapy used to treat a variety of injuries, wounds, fractures, neurological conditions, numerous dermatological problems, and pain. Whether your pet is rehabilitating from trauma or injury, healing from wounds or simply aging, your companion will benefit from this revolutionary new approach to pain management. Laser therapy has been scientifically proven to be successful in treating post-surgical pain and many acute and chronic conditions.

CHIROPRACTIC CARE

Chiropractic therapy is a drug-free and surgery-free treatment option, that helps the body heal itself.

Just as in people, this growing field of animal health care focuses on the restoration and preservation of the neuro-musculoskeletal system. It is a non-surgical, drug-free option for correcting bone, disc, and soft-tissue disorders related to spinal configuration and movement. Veterinary chiropractic can benefit pets with both acute injuries and chronic conditions!

DENTAL

Did you know that 80% of dogs and 70% of cats have some evidence of periodontal disease by age three? Four Corners Veterinary Clinic offers complete pet oral health services, including:

- Teeth cleaning and polishing
- X-Rays
- Tooth extractions
- Minor oral surgery
- Bond and seal treatments

Periodic dental exams help maintain proper oral hygiene and prevent future problems, especially if you have a pet who won't tolerate brushing—interested in learning how to brush your pet's teeth? Call us at (541) 688-5521 and our veterinarians will be happy to help you get started!

INSURANCE

Many pet owners ask whether or not they should get pet insurance for their furry family members. There are many plans and options available and it's a good idea to do some research before choosing one for your pet.

Some questions to ask before you sign up with an insurer include:

- Is there a physical exam required to get coverage?
- What percentage of the bill does the company pay after the deductible?
- Are there co-pays?
- Does the plan cover pre-existing conditions and recurring medical problems?
- Can you choose any veterinarian or animal hospital?
- Are prescription drugs covered?

Have more questions about pet insurance? Give us a call for more information, or ask at your pet's appointment.

WELLNESS PLANS

Whether you have a new puppy or kitten, or an adult dog or cat, we have the best veterinary wellness plans around! These pre-paid discounted plans focus on preventive services that will keep your animal companion healthy and help us detect any health issues. You get to provide the best care possible for your pet at a reduced rate, spread over 12 months, with no interest! Plus, you'll save 5% on all services!

Our monthly fees are based on your pet's age, species and plan type.

Choices include:

- Puppy Preventative Care Plan
- Kitten Preventative Care Plan
- Dog Preventative Care Plan
- Cat Preventative Care Plan

Optional add-on services are available for any plan, such as spay/neuter procedures, microchipping, booster shots, and so much more. Please visit our website www.fourcornersvetclinic.com for details.

PAYMENT OPTIONS

We accept debit cards, Visa, MasterCard, Discover, American Express, checks and cash. We also partner with CareCredit to assist with unforeseen expenses and highly recommend pet insurance.
